*Read the passage and answer the questions that follow.*

Creamy outlook with soft speech presentation is a prima facie attraction that brings joy on the withering faces with a mixture of sensational touch. Smile with grace is the ultimate boon to the mankind keeping away any melancholy at bay. Old age is often miscalculated as liability with little attention paid to them. Their talents and learned potential is buried alive with undue care by oblivious approach due to disfigured or deformed physical structure taken over by aged talents of the society.

It happens to us all, however hard we may try to delay the process. We grow old. Cosmetic surgery may remove the wrinkles, skin which has sagged may be tightened by means of a facelift and hair dresser may dye grey hair a more youthful colour, but we cannot remain young forever.

However, what is important is the quality of life. Some people are lucky to be taken care of at home whereas others may have to move to residential homes. The worst part of ageing is that often the mind becomes less alert. As people grow older, they experience short term memory. Later some may suffer from dementia, often in the form of Alzheimer's disease.

By no means all people are in this category. Many senior citizens are in the possession of all their faculties and see retirement as a time of freedom. Not only that if they have a generous retirement pension, they are likely to be quite well off with money to be spent on a holiday and other luxuries. Because of this, both businesses and government have a new respect for what is known as grey power.

It is unfortunate that many people regard old people as geriatrics who have one foot in the grave. Someone should remind them that they too would be old one day!

They are honoured with senior citizen label granted by the authority with due regard paid from distinct

possession of living cadres. One should always bear in mind the old saying "Tit for Tat". Which denotes its symbolic regulation of periodical sufferings. The aforesaid misdoings of emotional disparity, done by striding steps is a curse to the mankind.

**1. Cosmetic surgery:**

- (A) helps in the retention of youth forever
- (B) cannot stop the natural process of ageing
- (C) is the solution to ageing
